ABAP to the Future - sap-press.com

ABAP (Advanced Business Application Programming, originally Allgemeiner Berichts-Aufbereitungs-Prozessor, German for "general report creation processor") is a high-level programming language created by the German software company SAP SE.

ABAP - Wikipedia

With the new conditional code constructs in ABAP 7.2 and ABAP 7.4 we have the ability to create ABAP code with fewer statements for the same functionality, without compromising readability of the code. New boolean functions like XSDBOOL, and new conditional operators such as SWITCH and COND allow us more flexibility and extensibility when ...

New Features in ABAP 7.4 - Conditional Logic - itsap.com

With the new string options like String Templates, Chaining of strings, and built-in string functions, we have the ability to create ABAP code with fewer statements for the same functionality, without compromising readability of the code. If you're working on a ABAP 7.2 - ABAP 7.4 based system, I would start using new ABAP coding because they ...

This document elaborates the SoD Management Process that is a key part to reduce Segregation of Duty (SoD) conflicts in a company. In fact SoD is a key contributor for fraud activities within an organization and hence to achieve seamless compliance (e.g. SOX) it is absolutely necessary to follow a straight process.
